

WORK FROM FARM

Oye! Here is a first.

***We are moving your
workspace to a farm.***

**Now, be inside a farm,
enjoy it to the fullest,
and do your work too.**

Co-working spaces are the latest in work space technology, and is here to stay. But ours is with a difference. You co-work inside an organised farm, with all its ruggedness as well as fineness.

Working at your table with high-speed wifi connectivity and air-conditioned settings, you will be amidst Fowls, Cows, Goats and even Fishes.

This innovative concept is taking shape in an area of about 2 acres at Malayinkeezhu, a pristine green area off Trivandrum city in Kerala.

KEY UNITS

PRODUCER COMPANY

Conceived and Operated as a **Producer Company** the members of this ***Work-from-Farm*** initiative will be professionals in areas like Agriculture, Aquaculture, Animal Husbandry, Management, Engineering, Medicine, Environmental Sciences, Planning, Solar & Wind Energy, etc. The contribution of these talents would add up to the productivity and longevity of this concept.

The concept of Producer Company in India was introduced to allow cooperatives to function as a corporate entity under the Ministry of Corporate Affairs. Producer Company is a company registered under the Companies Act, 2013, which has the objective of production, harvesting, procurement, grading, pooling, handling, marketing, selling, and export of primary produce of the Members or import of goods or services for their benefit.

Further, the Producer Company must deal primarily with the produce of its active Members and must allow to carry on any of the following activities by itself or through other entities—on behalf of the members.

INVESTMENT

- 100 shares of 2 Lakhs each.
- The members can purchase the produce at a pre determined price.
- Profit or Loss should be shared.
